Building A Better Mind - Psychology's Relationship With Financial Capability

**By Jeremy Claire Amaya Estevez and Valerie
Carrillo**

The Problem and Why We Should Care

- “Americans 18-29 years old owe \$1.05 trillion in debt.”
(Forbes Magazine, 2019)

Bold Statement

Psychology drastically affects a young adult's Financial Capability by impacting what they think, what they feel, and what they do with their money.
